When it comes to spacious luxury living, there's no doubting Cimarron's appeal. The largest of our home designs, Cimarron is grand in every iteration of the word. A grand spiral staircase meets you on entry, taking you up to the equally grand master suite. Guests will also enjoy the impressive nature of their bedroom/ensuite combination, with their very own balcony off the second bedroom. The kitchen pantry is another memorable aspect of this design, and this is also our only home offering a dedicated library. And if you're looking to add a plunge pool, Cimarron is the design you should dive into.
